

A Message from your School Nurse

We'd like you to complete a questionnaire about your health and how you feel. It doesn't take long but it could be helpful for you and for other young people.

We want to provide you with the best support that we can, but to do this we need to know more about the health and feelings of young people like you.

We support your right to be involved in things that affect you!

Why are we asking you to complete the questionnaire?

What do we use this information for?

To know if any individual young people need some help or support (last year over 5,000 did).

To develop better services and support for all children and young people

Your personal information is kept private between you and the school nurses

We treat it with respect and do not show personal information to school

We collect the information together to help us to understand the health needs of all young people in your school or town.

What happens to the information I give?

Do I have to do it?

No you don't—but we hope you will.
Last year 20,000 children and young people across Lancashire did.

If there is more you want to discuss about this or anything else, the school nurse will always try to help. Call us on:
