

CAREERS NEWSLETTER

This newsletter is a collation of all the opportunities we have heard about from employers and universities. Please use the links included to read more information and apply to anything you are interested in. Links are underlined.

OPPORTUNITIES

"The Empowered Females in STEM Network aims to engage and empower diverse female and non-binary STEM students from across England, connecting them with a range of incredible opportunities from leading STEM companies. So far, we have Pfizer, Colt, Dyson, BP, AWS, and UCB on board, and we couldn't be more grateful for their time and commitment!" You can sign up here.

Bp, a globally recognised multinational oil and gas corporation with its headquarters in the United Kingdom, is inviting students to participate in a Work Experience Day and a Work Experience Week. Both of these unique opportunities provide a practical, immersive atmosphere to acquire knowledge about the energy industry and gain an understanding of its inner workings. You can apply here, the deadline is 22nd June.

Minds Underground have a number of essay competitions that are free to enter. There are varying age categories and subject areas that you can read more about here. These will look great on your CV, personal statement and applications.

The next Medic Mentor Online Conference takes place on 25th June and 9th July. It's completely free and provides you with everything you need to know about applying to study Medicine at University. Sign up here.

Going to uni this year? Check out this Guide to Uni Life Packing List to help you get organised ahead of your move.

Passion. What is it? Why is everyone so obsessed with finding it? Speaking of which, how do you find your passion? Read more here.

If you have any questions or need support, please email shaigh@lrgs.org.uk or chope@lrgs.org.uk

JOB OF THE WEEK

Geoscientists study the Earth's structure and formation, and analyse rocks to explore its natural mineral and energy resources. The annual salary is £28,000 to £42,000 and you can expect to work 39 to 41 hours a week. There will be 3.3% more Geoscientist jobs in 2027.

OPPORTUNITIES

Are you going into Year 12 in September? Don't miss out on the opportunity to take part in a University Summer School between Year 12 and 13. They're a great way to learn more about courses, university life and the application process. Most are free and information can be found on the university's websites. Just search the name of the university followed by "summer school".

Emma Parker is a Ranger at Hopetoun House. She has written an article about her experiences, why she loves volunteering and where her placements have taken her. [Click here to read more about her story.](#)

Brampton College Medical Forum have put together a panel of students and clinicians for a student-led Medical Webinar. They would like to invite prospective Year 10-Year 13 medicine and dental school applicants who wish to gain invaluable first-hand insights about applications and prospective careers. There will also be a Q and A session. Monday 19 June 2023 4.00 - 5.30pm. [Register here.](#)

[Panjango Online](#) is an online world that allows you to develop the knowledge, skills and experience needed to thrive in life after school - all while enabling you to discover more about careers in a fun and interactive way. You need to make an account but once signed in, you will see a whole world and can click in to learn more about different jobs and take part in challenges to develop the skills you need for that particular job role.

Universities have their June and July open day registrations open! Don't miss out, you can find the registrations on the universities website, [UCAS](#) or [UniTasterDays](#).

Here are [UCAS's top tips](#) on how to prepare for and make the most of university open days.

EMPLOYER SPOTLIGHT

"Ebeni is a company that not only delivers outstanding technical knowhow but also breaks the mould of the traditional engineering firm. We are committed to supporting the next generation of engineers and encouraging diversity and inclusion in engineering."

You can read more about their careers [here](#).

UNI SPOTLIGHT

"A Bristol degree is highly attractive to employers: we offer our students a high-quality, research-led education, and enhance our global reputation by recruiting the best academics. Our courses are shaped by the very latest thinking, and our students work on real-life projects with academics who are experts in their field."

You can read more about University of Bristol's courses [here](#).
