20% written exam paper 2 - Designing & making principles

Required (Task Time:)	N/A
Highly Recommended (Task Time: 3 hours)	Investigate the work of a designer of your choice. What are their most significant products? What made their products more desirable than preceding products? What influenced them? What are they doing now? How have they influenced their design genre and other genres in their time? What are your opinions of their work? Write up your case study as a word document. You should be aiming to produce approximately 500-1000 words. Do not copy & paste directly from websites This website has some useful information to get you started. https://designmuseum.org/designers
Optional	N/A
