Year 12 Lancaster University Biomedical and Life Science Department visit, Thursday 11th December 9.00am-3.00pm.

Dear Parents and Guardians,

Dr. Emma Shawcross, a teaching fellow in the Biomedical and Life Science department, has invited a group of LRGS biologists to visit Lancaster university.

This is an exciting opportunity. The students will be working with biomedical undergraduates and have access to the facilities at this highly ranked university. The activities aim to inspire LRGS A-level biology students in the fields of human physiology, biotechnology, genetics and immunology.

LRGS biology teachers will accompany a group of 20 students on **Thursday 11th December 9.00am-3.00pm**. There is **no cost to the students**, but we ask that they **make their own way to and from the university**. Students can bring a packed lunch or visit the food outlets on campus during the lunch break without teacher supervision.

Students should **sign-up for this no-cost visit on Wisepay**. There are only **20 places available**, and they will be **allocated on a first-come, first-served basis**.

Evolve should send out an email link (please check junk mail) to be able to consent for this trip.

Yours sincerely,

Mrs. K. Newton

Biology teacher
