Dear Parent/Guardian

Medical registration

At LRGS we have a well-equipped medical centre which is in the charge of a fully-qualified nursing sister, Mrs Moghaddam. The medical centre is available to all boys and supports their health and well-being.

By giving consent on the attached Information for School Records form, it will ensure that Sister Moghaddam is able to administer the correct medical treatment to your son if needed. Please also forward any medical information that you feel relevant in order that a care plan can be written for your son if required. Conditions for which registration is required are asthma or any diagnosed medical condition which may give rise to falling, loss of consciousness, loss of muscular control, loss of hearing or the onset of severe or distressing symptoms.

Any information provided will be treated with the strictest confidence and will be removed from our records once your son leaves the school.

Yours sincerely

Dr C J Pyle
Headmaster
